\*\*For students in **Math 1** they must have access to a graphing calculator for their daily homework. This can be Desmos (or any other online graphing program) **OR** you can purchase a TI-nspire CX (**NOT CAS** TI-nspire Calculator). This item is rather expensive, but will be used extensively in class and for homework. Your student will be able to use this calculator for any high school or college-level math and science class they take. Please contact Mrs. Farmer if you have any questions or concerns about this purchase.

\*Students should give these to their homeroom teacher to be distributed in all classrooms.
