Additional Business:

Spring Semester Brainstorming

Specific questions to think about:

- Are there other ways we could be connecting families virtually?

Maybe Classes Like ..

Book Club with Mrs. Liles?

Art class with Mrs Lewis ? (Adult or family?)

Yoga with Coach Carter ?

Are there parents that have a skill they can share/ teach?

- Are there other ways we could connect in person that fall within Healthy Together guidelines?
- Do you have ideas for spring service projects? Ways we can show care to our community?
- Are there additional campus improvements we could work together to implement that would enhance the spaces we have to learn in/play in outside
- Do we continue with the strategy of "no frills" fundraising - produce sales, dining out opportunities, etc to beginning building our general funds for next year?
